To our LRA in the bush,

Now is the time to end your struggle in the bush. End this rebellion and return home for your sake and the sake of the children. The traditional, cultural, and religious leaders have come together to help you return to your families. Uganda cannot be whole without you, its children. Listen to the radio programs hosted by Involuble Children and the Americans. Leave your weapons behind and enter the villages where there are reception centers. No one will do harm to you. Tell the LRA you are ready to defect and no harm will come to you. It is time for you to be chiefs in your own house.

We want to meet with you and show you that all of this is true. Speak to village leaders where there are reception centers and tell them you are ready to meet with us to return home.

Yours faithfully,

Our children in the LRA are there

We send you greetings from our home in Uganda with a message asking you to return home, our hearts are with you and we feel you have been out there too long. As Mr Kiwanu Achol, Achol religious leaders and church leaders we have come together and are ready to receive you at home. As things are turning out there where you are, it is soon going to get difficult for you to remain in Uganda as many of the NGOs and especially the USPDF, will have stopped to get some of you home are leaving. We ask you to listen to the rakas hooked by Invisible Children and the Americans.

We are right here and want to meet with you and show you that all of this is true. We ask you to leave your weapons behind and go to the villages where there are reception centres. Contact the shop's there, inform them of your intention to defect and you will be accepted and not be harmed.

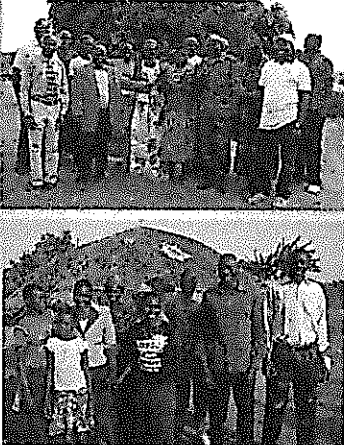

Please take this as a very important message from your leaders, parents and relatives at home and act accordingly. We wish you all the best as you return home.
